

# Ways of Comparing Models

*Katie Renwick*

*August 19, 2016*

Pairwise comparison of predicted baseline: simple correlation matrix.

	AK	CC	DGVM	DRS
AK	1.00	-0.04	-0.48	-0.48
CC	-0.04	1.00	0.05	0.14
DGVM	-0.48	0.05	1.00	0.46
DRS	-0.48	0.14	0.46	1.00

Pairwise comparison of predicted with 4c temp increase: simple correlation matrix.

	AK	CC	DGVM	DRS
AK	1.00	-0.13	0.77	-0.43
CC	-0.13	1.00	-0.04	0.29
DGVM	0.77	-0.04	1.00	-0.43
DRS	-0.43	0.29	-0.43	1.00

Pairwise comparison of change (predicted-baseline), 4C temp increase.

	AK	CC	DGVM	DRS
AK	1.00	-0.09	0.81	0.18
CC	-0.09	1.00	-0.08	0.10
DGVM	0.81	-0.08	1.00	0.06
DRS	0.18	0.10	0.06	1.00

Pairwise comparison of change (predicted-baseline), 4C temp increase.
